

Inspiring Young Scientists and Researchers

Young Scientist Incubation Project

YSiP aims to improve Science learning outcomes through developing investigative and problem solving skills by providing opportunities for learners to engage in and extend themselves within and beyond basic school practical work and practice investigative and problem solving skills.

- Increase curiosity and interest in science
- Fostering lifelong learning
- Develop critical thinking and problem-solving skills
- Presentation and communication skills
- Become successful at school, university and in the world of work
- Create networking opportunities for educators and learners to exchange and share ideas
- Opportunity to become young entrepreneurs
- Pursue a career in science
- Changing communities and changing ..

YSiP Mini Expo takes place in Pinetown District in the First Week of June/July School Holidays so **SIGN UP TODAY!**
Regional Expo takes place in August 2018
